

C1 a repositionable island removably coupled to the front surface of the main unit, wherein the repositionable island extends outwardly from the front surface of the main unit thereby forming at least two separate play areas.

Amended Claims:

C2 1. (Thrice Amended) A toy kitchen comprising:

a main unit having a front surface; and

a repositionable island removably coupled to the front surface of the main unit, wherein the repositionable island is perpendicular to the front surface of the main unit thereby forming at least two separate play areas.

C3 2. (Amended) The toy kitchen of claim 1 wherein the main unit includes a first side wall and a second side wall, the repositionable island being removably attached to the main unit at one of the first and second side walls.

C4 9. (Twice Amended) The toy kitchen of claim 1 wherein the main unit includes a front side and a rear side, and wherein an opening is defined within the main unit extending from the front side to the rear side, and wherein the main unit further comprises at least one of a window sill and a pair of shutters positioned at the opening.

C5 12. (Thrice Amended) A repositionable toy kitchen comprising:

a first unit extending along a first substantially vertical longitudinal plane; and

CS at least one removable and repositionable second unit extending along a second substantially vertical longitudinal plane and positionable perpendicular to the first unit in a first position, wherein the repositionable second unit is removably connected to a front surface of the first unit to form at least two separate play areas, and a second position, in which the first and second longitudinal planes are substantially coplanar. (fig 9) NOT applicant did not say it is connected or attached perpendicular (fig 11)

13. (Amended) The repositionable toy kitchen of claim 12 wherein the first position defines first and second play areas, the first and second play areas each partially bounded by one side of the first unit and one side of the second unit, and wherein the second position defines a continuous play area extending along one side of the first and second units. 10e
